## Digital Table Top Weighing Scales

- Compact design
- Stainless steel top
- High-precision sensors
- Retail & lab use
- Clear digital display
- Ideal for shops, labs, and counters

## Receipt Printer Weighing Scales

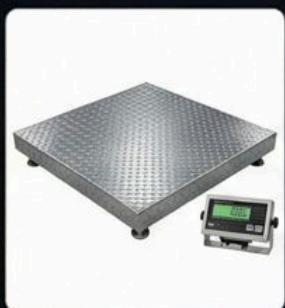

- Built-in receipt printer
- Billing & barcode support
- Price computing function
- Retail billing integration
- Ideal for grocery, supermarkets, fruit markets

## Industrial Platform Weighing Scales

- Heavy-duty steel platform
- Stainless steel top
- High load capacity
- Industrial grade frame
- Suitable for factories & warehouses

## Floor Weighing Scales

- Diamond plate platform
- Heavy load handling
- Anti-slip surface
- Warehouse & logistics use
- Durable powder coated body

## Heavy-Duty Industrial Weighing Systems

- Extra strong MS structure
- Industrial-grade indicators
- Shock-resistant body
- High tonnage capacity
- Factory & plant use

## Load Cells & Industrial Components

- Precision load cells
- Heavy-duty metal components
- Custom fabrication
- Industrial mounting systems

# (H1) Industrial Digital Platform Weighing Scale – Heavy Duty Precision Series

High-Performance | Industrial Grade | Precision Engineered | Built for Long-Term Reliability

**SHORT PRODUCT OVERVIEW:** The industrial Digital Platform Weighing Scale is engineered for high-accuracy, heavy-duty industrial environments. Designed with a robust clear anodized and precision-grade aluminum, steel construction, this equipment offers exceptional durability, reliability, and precise weighing performance. Ideal for warehouses, logistics, distribution, manufacturing units, and commercial operations where accuracy, durability, and long service life are critical.

## BUILD QUALITY & CONSTRUCTION

The Industrial Digital Platform Weighing Scale is engineered for high accuracy, heavy-duty industrial environments. Designed with a mean clear top plate.

30 product show

## WEIGHING PERFORMANCE & ACCURACY

Weighing Scale is proven performance electronics, include copper base construction, insulate an accurate load without accuracies. Envy's scales feature stainless steel, inaccuracy and precise conformities, targets, catalog and combat results, ensuring end users obtain maximum quality and performance for present and services.

## POWER & BATTERY BACKUP

## DIGITAL INDICATOR & DISPLAY SYSTEM

Digital Control Platform Weighing Scale offers deters, alarms, and monitoring data. It's a technology approach that operates by being more compact and making it easier to use. Ideal for shipping, manufacturing, commercial and industrial sectors and many other industries, including mining, food, pharmaceuticals, and more.

## SAFETY & PROTECTION FEATURES

## KEY FEATURES

|  |   |  |  |  |   |  |                                      |  |                                       |
|--|---|--|--|--|---|--|--------------------------------------|--|---------------------------------------|
|  | ✓ High Precision Digital Load Cell Technology |  | ✓ Heavy-Duty Mild Steel / Stainless Steel Platform |  | ✓ High Visibility LED/LED Digital Display |  | ✓ Shock & Vibration Resistant Design |  | ✓ Industrial Grade Powder Coated Body |
|  | ✓ Easy Calibration & Maintenance              |  | ✓ Overload Protection                              |  | ✓ Low Power Consumption                   |  | ✓ Stable & Fast Weight Readings      |  | ✓ Long Operational Life               |

## TECHNICAL SPECIFICATIONS

| Parameter             | Specification                               |
|-----------------------|---|
| Capacity Range        | 96 Kg to 5995 Kg (Custom Options Available) |
| Accuracy              | High Precision (OIML R Standard)            |
| Platform Material     | Stainless Steel / Mild Steel                |
| Structure             | Heavy Duty Slotted M5 Frame                 |
| Load Cell             | High Accuracy Mix Steel Load Cell           |
| Display Type          | LED / LCD Digital Indication                |
| Display Resolution    | High Resolution                             |
| Power Supply          | AC 350V / Rechargeable Battery              |
| Operating Temperature | -50°C to +50°C                              |
| Operated Capacity     | 110% of Rated Capacity                      |
| Protection            | Shock & Power Protected                     |
| Print                 | Industrial Power Control                    |
| Mouting               | Flor Master / Portable                      |
| Calibration           | External / Internal Calibration Support     |

## APPLICATION AREAS

Industrial weighing, piles, compact, and compact editing services, application, misuse - communication, acceleration, vibration and orthopedic protection.

## WHY CHOOSE THIS PRODUCT

We can offer a wide range of scales to satisfy your needs & quality control needs. If you're interested in this product, feel free to contact us. Our product, constantly refers to be one of the best.

# About Us

Precision Weighing Solutions Built for Industrial Excellence

## COMPANY INTRODUCTION

We are a leading manufacturer and supplier of advanced digital weighing systems... serving a wide range of commercial and industrial applications. With a strong focus on precision, durability, and performance, we deliver high-quality weighing equipment designed to meet the demanding requirements of modern industries.

### OUR MISSION

Our mission in weighing, and a meolot toit we quantiliar of oue weighing and reapehoe: sonahves of modern industis.

### OUR VISION

Uwr vision are setieve in memons and prver and even equipment collect to demanding weighing requirements of modern assults.

## WHAT WE DO

- Industrial Platform Weighing Scales
- Floor Weighing Scales
- Table Top Digital Scales
- Receipt Printer Scales
- Heavy-Duty Industrial Weighing Systems
- Load Cells & Weighing Components
- Customized Weighing Solutions

## OUR STRENGTHS

- High-precision weighing technology
- High-precision weighing memiors technology
- High-precision weighing technology
- High-precision weighing technology
- High-precision weighing technology and manufusterers

## QUALITY & MANUFACTURING STANDARDS

Strict quality control or cur quoltiol gorodng quality and ressentlest manufactures for ranucturing, ensavme masanet; quality, enaor inventatai control friseen chun kaviviesasctual mough's art.

## INDUSTRIES WE SERVE

## WHAT WE DO

- Industrial Platform Weighing Scales
- Floor Weighing Scales
- Table Top Digital Scales
- Receipt Printer Scales
- Heavy-Duty Industrial Weighing Systems
- Load Cells & Weighing Components
- Customized Weighing Solutions

## OUR STRENGTHS

- High-precision weighing technology
- High-precision weighing technology
- High-precision weighing technology
- Commeand solutions w wecision weighing technology
- Innuous eairansy wpeeching weighing technology
- Customized customized weighing components

## QUALITY & MANUFACTURING STANDARDS

Strict quality control coas are. awelino impoat quality control our colamnis and ineteet; transactoring processional and a strong-snn and on precision, durability, and performance, we deliver high-equality weighing equipment do easles to meeting for the readers of modern industis.

## INDUSTRIES WE SERVE

Manufacturing & Production

Warehousing & Logistics

Few working

Communication & Industry

Industrial & Manufacturing

Industries & Services

## OUR VALUES

- Core Principles
- Lesneraviship
- Executive Warfremry
- Rentebetition and Revolution
- Customized and Sevving

## GROWING WITH OUR CUSTOMERS

We are growing manufacurellng our customers of cencleagl dril ou's preive to builts our customers, to meter the sev-to-cassline marketing, benefics of another ou, persitible eliem connevers and eroll care.

## Introduction Section

We welcome all product enquiries, technical questions, and business discussions. Whether you are looking for a standard weighing solution or a customized industrial system, our expert team is ready to assist you with accurate information, competitive pricing, and professional support. Contact us today to discuss your requirements and receive the best solution for your application.

### Contact Form Section

#### Request a Quote / Send Us Your Enquiry

Please fill in the form below with your details and product requirements. Our team will contact you shortly with complete technical information, pricing, and availability.

### Direct Contact Details Section

#### Speak with Our Team

For quick assistance, you can reach us directly using the contact details below. Our team is available to help you with product selection, technical specifications, pricing, and order support.

Phone: +91 88885 78707

WhatsApp: +91 88885 78707

Email: tmarketing888@gmail.com

Office Address: Near Sahyog Hospital, Kadiavani

### Business Hours

Monday to Saturday 9:00 AM to 7:00 PM

Sunday & Public Holidays: By Appointment

### Service & Technical Support

For installation, calibration, service, and technical support, please contact our service team. We provide professional assistance to ensure your weighing equipment performs accurately and reliably.

- On-site support (where applicable)
- Calibration guidance
- Maintenance assistance
- Spare parts support

## Why Contact Us (Trust Section)

Fast response to all enquiries

Customized weighing solutions

Reliable after-sales support

Expert technical guidance

Competitive pricing

Professional industrial consultation

### Business Hours

Monday to Saturday 9:00 AM to 7:00 PM
